

Bejewelled

At The Pavilion at The Tower of London

Our winter installation will provide an amazing space for a variety of events including Christmas parties, charity dinners, conferences and awards in this landmark attraction.

The theme for 2011 is 'Bejewelled' taking inspiration from the historic setting and combining design trends of the season including strong colours and metallic shiny finishes, a setting that will wow even the most seasoned guests!

Stylish storm lanterns will light the path leading to the main entrance. Deep red walls will create a luxurious and intimate area for guests to relax and enjoy reception drinks. The dining room will be an open space with regal purple linings, a glittering cream starlit roof and a fully glazed wall exposing the Tower of London's stonework, offering unrivalled views of one of its most striking features.

What's included:

- Exclusive venue hire
- All theming, lighting and production
- Sparkling wine and cocktail reception
- Three course seated dinner or buffet
